Main duties of this role:

- Riding Exercise
- Grooming
- Mucking out
- Cleaning Tack

Personal Statement

I am a hardworking and enthusiastic individual who is looking for a position as a Travelling Head Lad. Since completing my residential 8 week course at the British Racing School, I have gone from being a stable lad in a small 10 horse yard to being in charge of 50 horses as a Head Lad. In my current position I have to show good organisational skills through being in charge of the feeding and medical needs of the horses and also my leadership skills in my role as deputy stable staff manager. This responsibility has been a great opportunity for me to use my own experiences as a Stable Lad to help my fellow staff with any work or personal problems they may be having as well as creating and developing a team spirit which is important to ensure a successful yard. I have also further developed my horsemanship through breaking in yearlings and have got great pleasure from this opportunity to work closely with individual horses and have found it extremely satisfying to see them go on to win races.

I enjoy my job but would like to experience the responsibility and excitement of travelling with the runners to the races and being in charge of the horses and the staff on racedays and the yard I currently work in cannot offer me this opportunity. Apart from racing, I enjoy watching and playing football and as captain of my local team.
